

Item for the Daily Log - 10 November 1952

I informed Mr. Amory, Acting DDI, that in federal court proceedings on 7 November, in connection with the Government's Anti-Trust Suits against the international oil companies, that Mr. Emmerglick of the Department of Justice informed the court that procedures were being established withing CIA and the Departments of State and Defense to review those documents requested of the oil companies, which the latter felt were too sensitive to produce before the Grand Jury. Mr. Emmerglick stated to the court that Mr. Dulles, Deputy Director of CIA, would be available for discussion of this matter with the court.
